Taskforce Purpose: Work collaboratively to develop a county-wide plan for the implementation of policies and practices that will alter the way Alameda County supports and serves people with behavioral health challenges with the goal of reducing the number of those individuals who currently land in jails. This Taskforce will facilitate the collaboration of criminal justice, behavioral health, and wraparound service (e.g., public benefits, social services, and housing) agencies to create department level implementation plans which will support the county-wide Care First, Jails Last plan.
